Our doctors plus Medicare Advantage equals a healthier you

It all adds up. You get a care team, led by your primary care doctor. Plus, you get Medicare Advantage with all the best of Original Medicare and more. Look at all the ways you get what you need to live your healthiest life.

Original Medicare or Medicare Advantage, what's the difference?

Original Medicare

Offers health insurance to U.S. citizens and qualified legal residents age 65 and older. People younger than 65 with certain medical problems also qualify. Original Medicare is run by the federal government, and includes 2 parts. Part A helps pay for hospital care. Part B helps pay for doctor visits.

Medicare Advantage

A better way to get Medicare. It covers everything that Original Medicare does, plus more. It's offered by private insurance companies. Medicare Advantage plans work with you and your doctors so you get the care you need. To learn more, visit [medicare.gov/medicare-you-handbook](https://www.medicare.gov/medicare-you-handbook).

What does this mean for you?

When you choose our doctors and a Medicare Advantage plan, you're choosing care designed to help you reach your personal health goals. This is care that's:

Focused on you

Doctors who listen and understand your needs. Plus, answers to your questions and a care plan that's right for you.

Made easier

The care you need, when you need it. Our doctors and care teams work together to help keep you healthy.

Better value

The right care to help you stay healthier and save money. Plus, a wide range of wellness resources.

Personalized care team

You get a primary care doctor and a care team of specialists and support staff. They all work together to offer you the very best care possible.

A care plan just for you

You'll work with your primary care doctor to develop personalized health goals for the year. Then, you'll get regular coaching to help you reach them.

The right care to help keep you healthier

Programs to manage long-term health problems

Have heart disease, diabetes, or COPD? You'll discover new levels of support to help you care for these and other long-term health problems.

Help every step of the way

Need to see a specialist? Have questions about your prescription drugs? Need in-home care? Your primary care doctor will make sure you get the care you need, when you need it.
